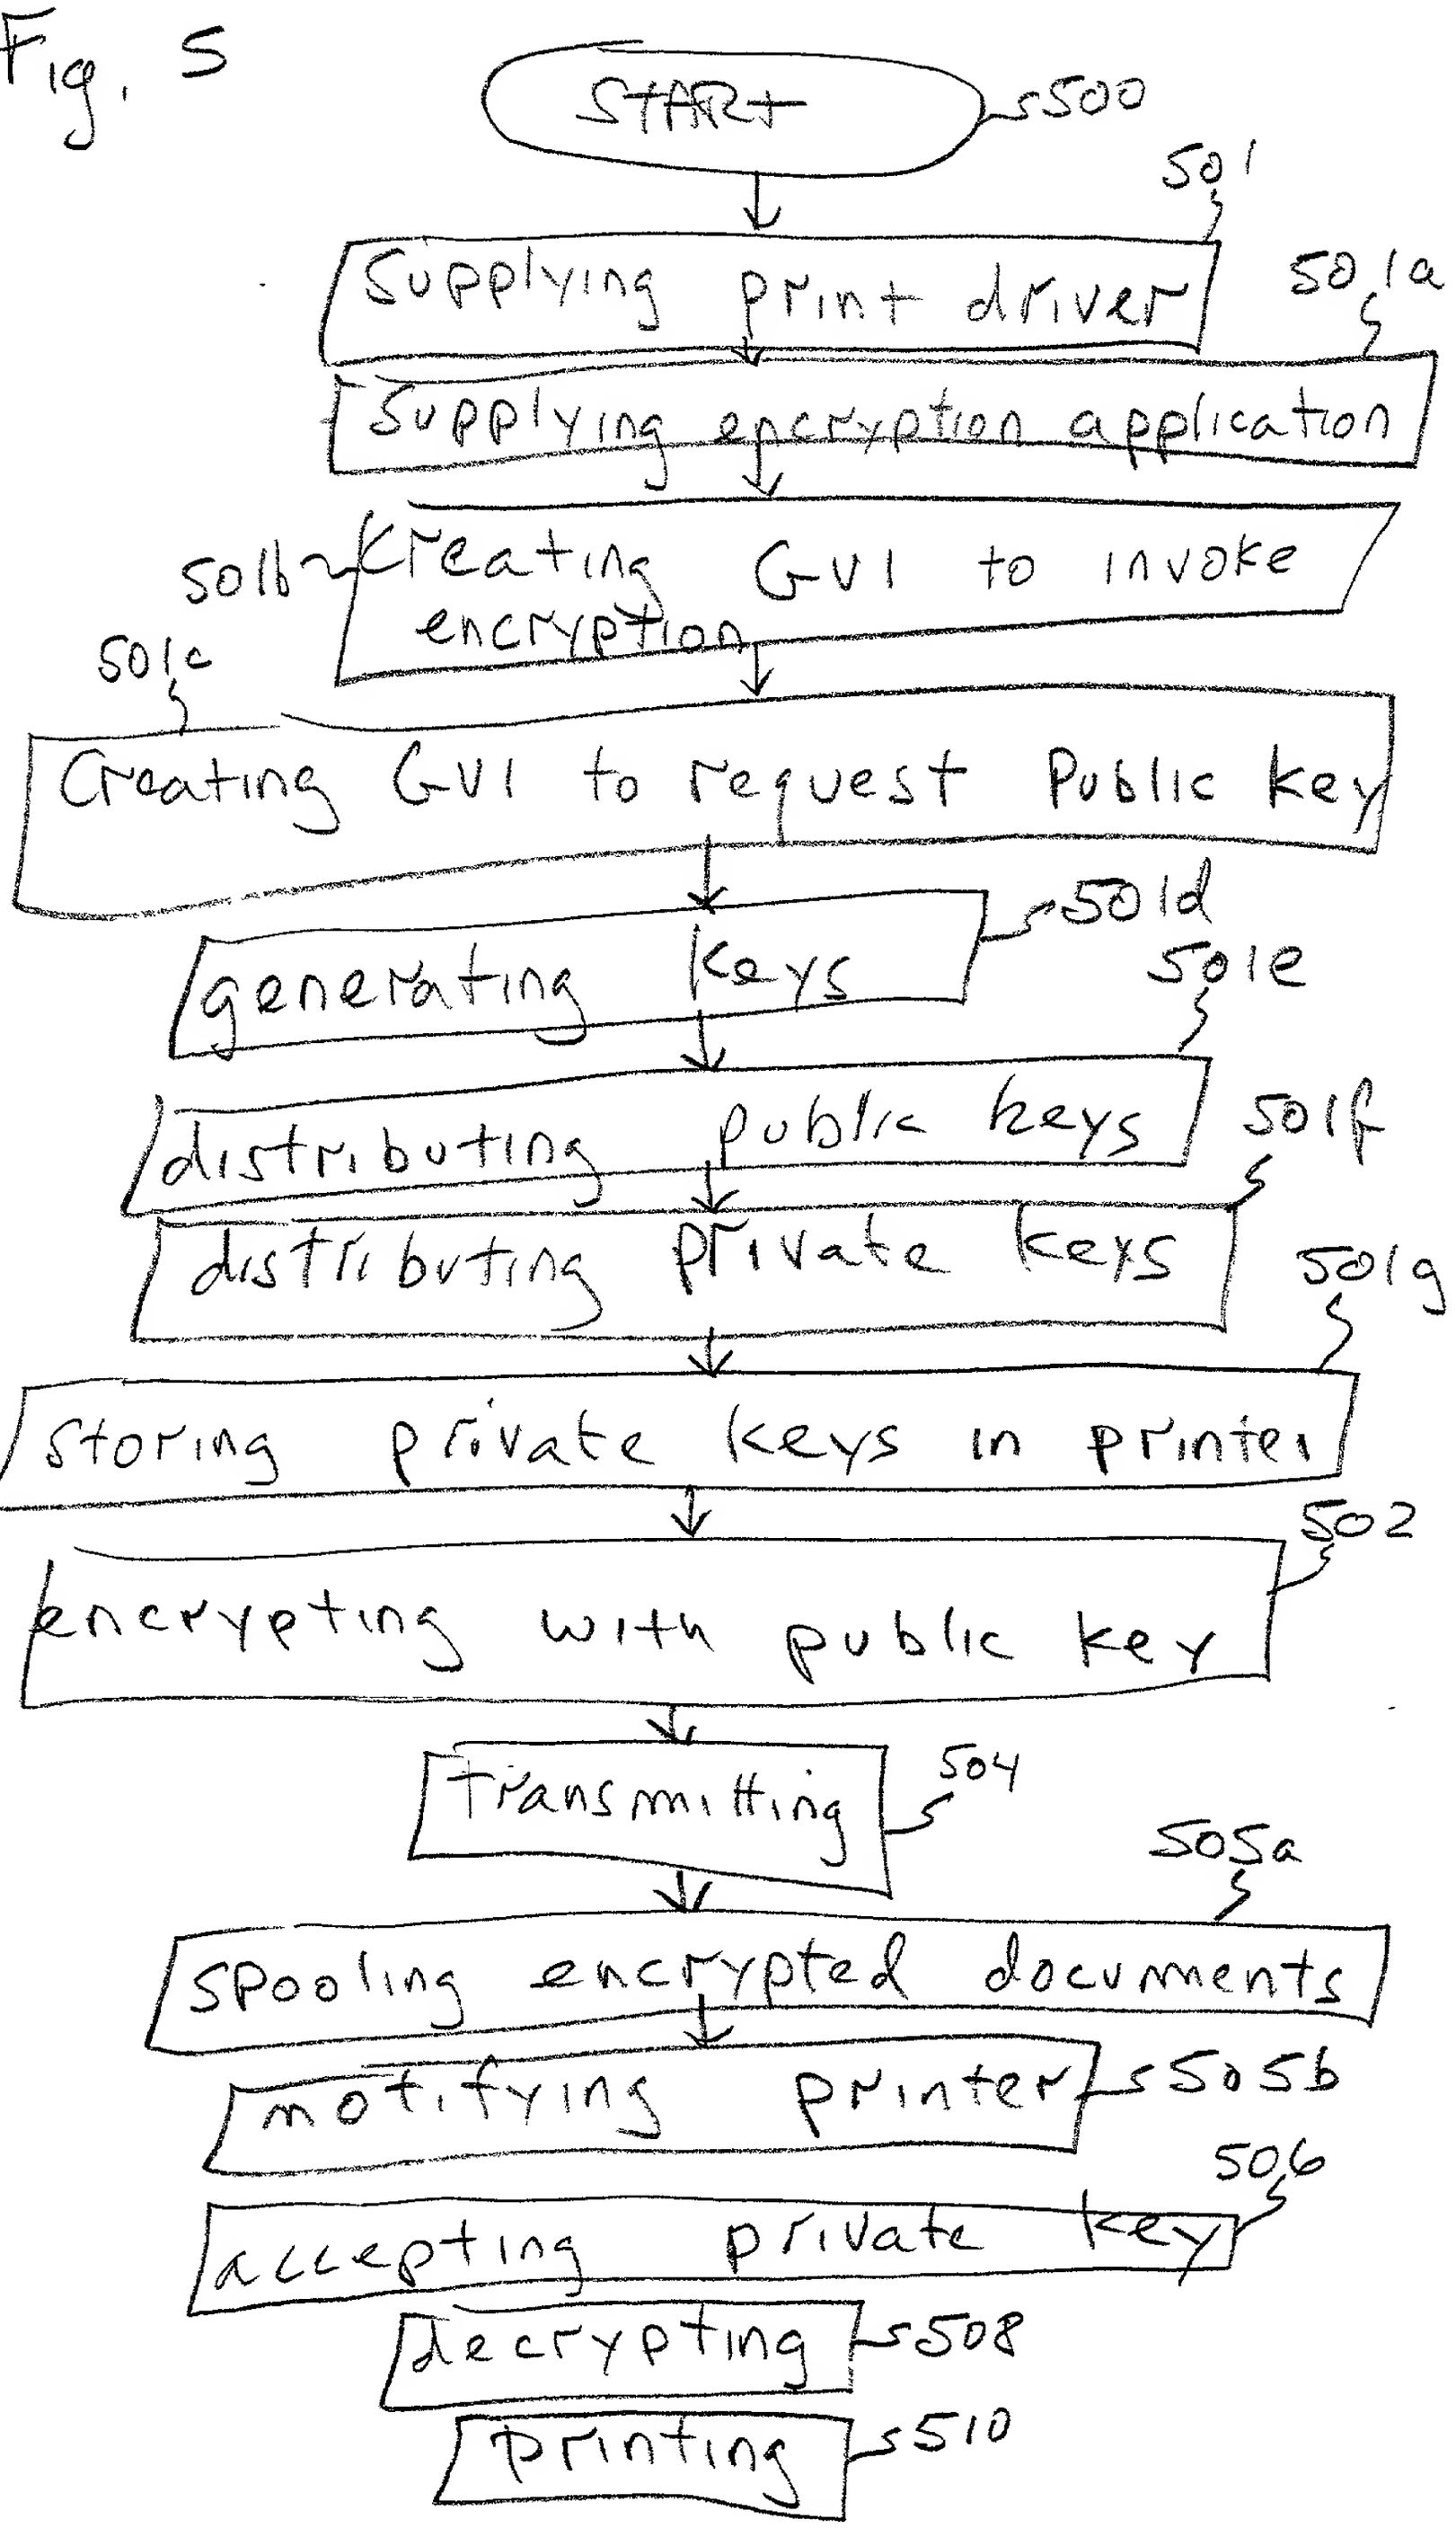
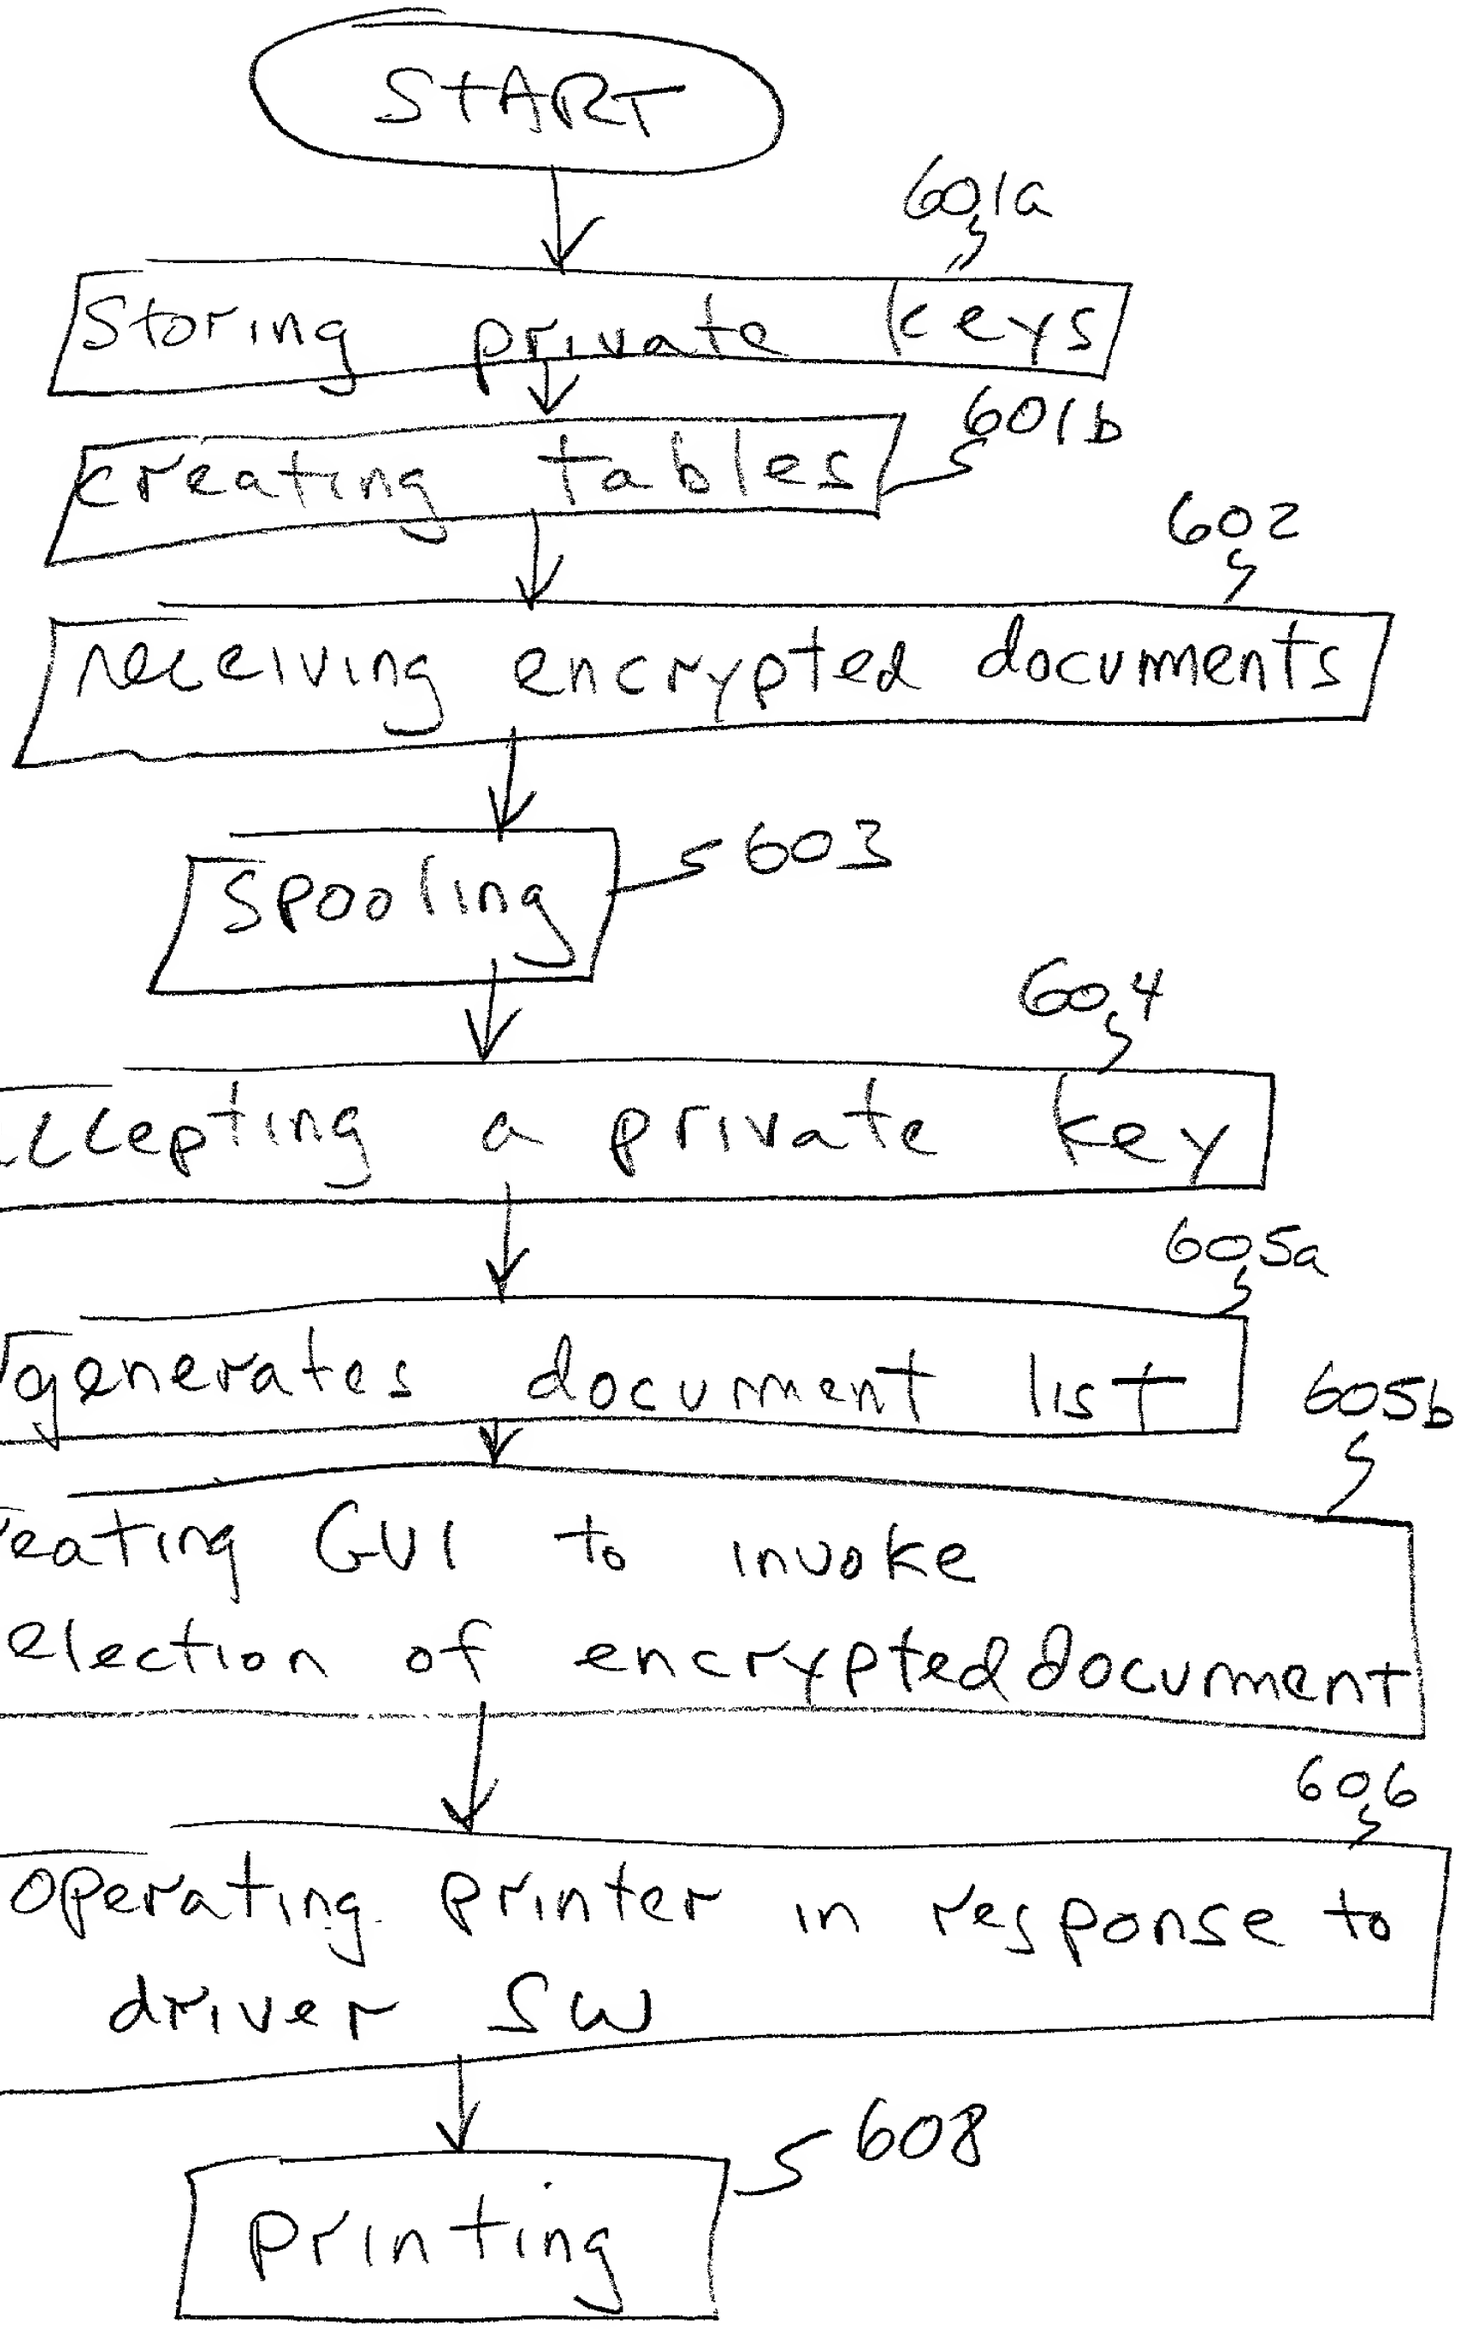
Fig. 5



START
500
501
Supplying print driver
501a
Supplying encryption application
501b
Creating GUI to invoke encryption
501c
Creating GUI to request Public key
501d
generating keys
501e
distributing public keys
501f
distributing private keys
501g
storing private keys in printer
502
encryepting with public key
504
Transmitting
505a
Spooling encrypted documents
505b
notifying printer
506
accepting private key
508
decrypting
510
printing



START
601a
Storing private keys
601b
creating tables
602
receiving encrypted documents
603
Spooling
604
accepting a private key
605a
generates document list
605b
creating GUI to invoke selection of encrypted document
606
operating printer in response to driver SW
608
Printing
